Pitch

"We offer a digital solution to streamline your attendance and payroll. Our software is designed to manage staff attendance, automated salary calculations, and salary payments with just a few clicks.

Features

"Our software comes with over 50 advanced features, including:

Lens App: This app uses facial recognition technology for attendance tracking. Your employees just need to stand in front of any smartphone camera, and their attendance will be marked within 4-5 seconds. It also tracks login, logout, and break times. You can set delay times to monitor late arrivals and automatically deduct them from salaries if needed. The Lens App is AI-based, ensuring 100% accuracy, and works both online and offline.

Multi-Shift Attendance Tracking: Ideal for field workers or remote employees. They can mark their attendance by uploading a selfie through our premium app. You'll receive an update with the photo, time, date, and location.

Automated Salary Calculation: Based on attendance, the software automatically calculates salaries, including daily payments, monthly payments, partial payments, advances, and deductions.

Cashbook: Maintain records of salary payments, cash in-cash out, and make online payments.

Salary Slips: Generate salary slips in your company's name.

Reports: Download real-time data or individual monthly reports in PDF or Excel format.

Cloud-Based Storage: Your data is 100% safe and automatically backed up."

Key Points

"Our software is designed for multi-business, multi-location operations. You can manage all types of staff (regular, contract) under a single application."

Closing

"If you're interested, I can arrange a live demo at your location. Could I get your company name, your designation, the number of employees, and a convenient time for the demo?"

If Yes

"Great, I've noted down your details. We'll be in touch soon to confirm the demo."

If No

"I understand. I'll leave my number with you in case you need our services in the future or know someone who might. Thank you for your time."
