WebApp Content

"We offer a digital solution to streamline your attendance and payroll. Our software is designed to manage staff attendance, automated salary calculations, and salary payments with just a few clicks.

Features

"Our software comes with over 50 advanced features, including:

Lens App: This app uses facial recognition technology for attendance tracking. Your employees just need to stand in front of any smartphone camera, and their attendance will be marked within 4-5 seconds. It also tracks login, logout, and break times. You can set delay times to monitor late arrivals and automatically deduct them from salaries if needed. The Lens App is AI-based, ensuring 100% accuracy, and works both online and offline.

Multi-Shift Attendance Tracking: Ideal for field workers or remote employees. They can mark their attendance by uploading a selfie through our premium app. You'll receive an update with the photo, time, date, and location.

Automated Salary Calculation: Based on attendance, the software automatically calculates salaries, including daily payments, monthly payments, partial payments, advances, and Deductions.

Cashbook: Maintain records of salary payments, cash in-cash out, and make online Payments.

Salary Slips: Generate salary slips in your company's name.

Reports: Download real-time data or individual monthly reports in PDF or Excel format.

Cloud-Based Storage: Your data is 100% safe and automatically backed up."
